TJ9MD (JJ42WV) QRV from Cameroun

TJ9MD's 2 x 15 ele xpol by Antennas Amplifiers (Photo DL8JJ)

At the moment Emil, DL8JJ, is still QRV from Cameroun, whenever his free time slots from HF CW operation during this DXpedition permit. Last day of operation will be November 15th. A detailed report will be printed in the next issue of the 144 MHz EME Newsletter.

Upcoming DXpeditions

For more information on current and upcoming DXpeditions please have a look at www.mmmonvhf.de from where most of the information here was gathered unless noted otherwise.

4W8X Timor Leste (PI21QK)

Sebastian, DG5CST, the EME operator with 4W8X, has arrived in Timor Leste on November 12th and started building up the station. This is no easy job given the high temperatures and humidity there. He plans to start activity on 2 m on November 14th though new moon will not be supportive then. Also the coastline at the QTH will be an obstacle during the first days when the moon comes up (and goes down) over the in-land hills. Please check www.timor-leste-dx.de for updates.

Next Newsletter Issue

As I will be a member of the German delegation to the ITU World Radiocommunication Conference 2023 (WRC-23) in Dubai from Nov 20th to Dec 15th I won't have sufficient time to produce a December issue of the newsletter. I will try to draft something after my return home on Dec 15th, so there might be a newsletter around Christmas. I'll drop a message on moon-net then.

However, for sure there will be one in January again.

Time Table

25/26 Nov	ARRL EME Contest
4 Jan	The January Issue of the 144 MHz EME Newsletter ready for download.
